

Company profile for Nord-Marine DK ApS

General company profile

Nord-Marine DK ApS is a Danish marine company incorporated in 2001.

Nord-Marine DK ApS provides a wide range of services within the marine sector.

Nord-Marine DK ApS has a permanent administration department which supports our various enterprises, both locally and internationally.

Nord-Marine DK ApS has over the years been involved in a wide range of off-shore construction sites and projects, from bridge constructions, port terminal refurbishments to wind-farms. This has given us a great deal of know-how.

Our senior staff has a firm background in the maritime environment with up to 20 years of varied experiences such as; Maritime Logistics – Training / Supervision – Port Captains – Insurance surveys - Port Assessments – Captains and Skippering.

Most of our consultancy work has been performed internationally, so our senior staff is thus fluent in English, both verbally and in writing.

Our multifunctional ships combined with our highly qualified and experienced staff have over the years earned us a reputation as a professional, reliable and flexible partner.

Nordmarine UK Ltd

In 2007 Nord-Marine DK ApS established a branch in the UK, which is based in London. The purpose of the new branch is to support our plans for developing businesses in the maritime sector in the UK.

The Nord-Marine DK ApS fleet consists at present of two ships:

- M/S Findus, a pax launch
- M/V Madog, a utility / research ship, accommodating up to 12 people.

Network

We have long-lasting relations with various service companies and are thus able to arrange assistance within a wide range of extraordinary services: Crane & bulldozer drivers – Diving companies – Welders – Carpenters – Technicians.
